

Gut Support For Pets

This soil-derived daily wellness supplement supports the foundation of your pet's health. It utilizes our innovative fulvate formula to diversify the microbiome and strengthen the gut lining, defending against toxins while improving nutrient absorption. All-natural and backed by science, ION* Gut Support For Pets promotes healthy digestion and boosts immune function - because our pets need support, too.

Head-to-tail wellness

Kidney Function

Proven to strengthen the important barrier cells of the kidney that help to filter toxins.

Digestion

By strengthening the gut lining, ION* helps to reduce gas and bloating while supporting optimal digestion.

Vitality

By reawakening 60-million-year-old soil carbons frozen in time, we reconnect your pet with their inherent vitality.

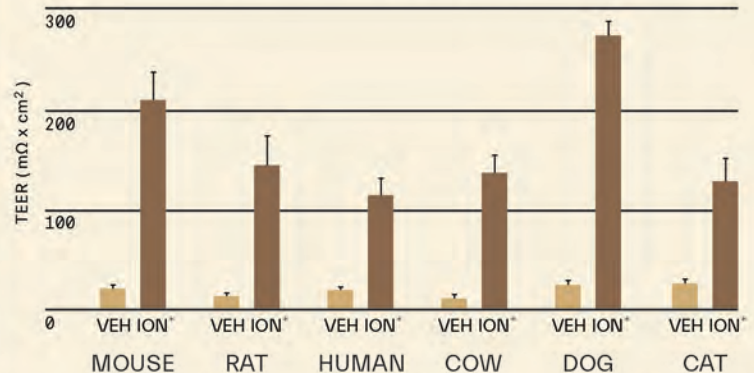

Immune Health

A strong gut lining allows fewer toxins and inflammatory particles getting through that can spark an immune response.

Designed by nature, proven by science

ION* Gut Support For Pets promotes tight junction production in kidney cells in six species

Level up your pet's wellness

"I've been using ION* Gut Support For Pets since its "birth" several years ago. All of my new animal patients are sent home with a bottle to support and accelerate their health. I've only ever seen positive results especially in relation to digestive health, and I find that it turns their health around faster in general."

- Bacterial metabolites, not probiotics
- USA-sourced and manufactured

Functions of ION*:

- Antioxidant
- Waste Chelator
- Nutrient Carrier
- Microbiome Communication

Bottle Sizes

16oz | 8oz

Gluten Free

BPA Free

Vegan

Recycled Packaging

Made in the USA

Why ION* Gut Support For Pets?

An unhealthy gut can have a cascading effect throughout the body. Given the number of downstream effects that chronic inflammation is responsible for, maintaining your pet's gut health is vital to their overall health.

The modern-day causes of prevalent gut and health issues include overprescribed antibiotics, glyphosate damage, and toxins in food. Rather than addressing any specific conditions, ION* Gut Support For Pets takes a holistic approach, helping to maintain gut and immune function, so that you can support your pet's health, head to tail.

The best way to take ION*

In an easy-to-use liquid formula, add ION* to your pet's water bowl or straight up, by using a syringe, administering gradually via the corner of the mouth. Pets can drink ION* Gut Support For Pets before, during, or after a meal. If you feed twice daily, you can split the following dosage in half and provide twice daily.

Our Simple Ingredients

- Humic Extract (from Ancient Soil)

Our humic extract is derived from ancient soil rich in beneficial metabolites. These metabolites combined with trace minerals create fulvate, a family of molecules that is at the heart of our science.

- Purified Water
- Silicon

<20 lbs: 1 tsp (5 ml) daily

21 lbs to 100 lbs: 2 tsp (10 ml) daily

>101 lbs: 1 Tbsp (15 ml) daily
